

2023 Inter-graduate school course (Intensive lectures in English) «Fundamental Course in Environmental Science »

2023年度後期 大学院共通授業科目 環境科学基礎論 (英語)

Environment Science Development division at Graduate School of Environmental Science (GES) offers 3-day intensive lectures for fresh master students enrolled at Hokkaido University in the Autumn term or the second semester. The lectures are however open for the existing graduate students, too, and those who are interested in the topics below are welcome to join the lectures. If fresh students meet with difficulties in course registration before the start of the lectures, please attend the first lecture and consult a lecturer. Further information of the intensive lecture is found in the university's website (Go to syllabus search web).

Date: October 2, 8:45-16:15 Room D201 GES
October 3, 8:45-16:15 Room D201 GES
October 4, 8:45-16:15 Room D201 GES

※ Contact Assoc. Prof. García Molinos (jorgegmolinos@arc.hokudai.ac.jp) for further information

Mon. 2 October

- 8:45-10:15 Assoc. Prof. García Molinos (Introduction/guidance)
- 10:30-12:00 Assoc. Prof. Avtar (Geospatial data application in Asia)
- 13:00-14:30 Assoc. Prof. Senzaki (Biodiversity conservation in terrestrial ecosystems)
- 14:45-16:15 Assoc. Prof. Negishi (Freshwater ecosystem management)

Tue. 3 October

- 8:45-10:15 Prof. Tsuyuzaki (Biodiversity and conservation of plants)
- 10:30-12:00 Prof. Noro (Carbon dioxide capture and storage)
- 13:00-14:30 Prof. Okino (Solution of Marine Pollution¥)
- 14:45-16:15 Assoc. Prof. García Molinos (Biogeography, climate change and sustainable development goals)

Wed. 4 October

- 8:45-10:15 Assis. Prof. Liu (Environmental modelling and assessment)
- 10:30-12:00 Assoc. Prof. Sato (Climate Change: Risks and Challenges)
- 13:00-14:30 Assoc. Prof. Yuichi Hayakawa (Understanding landscapes with modern technology)
- 14:45-16:15 Assoc. Prof. García Molinos (Report preparation)
